EPBF Rules Instructor Courses

Dear friends of sports,
you know that the EPBF has organized some Rules Instructor courses. The participants which took part confirmed, that the courses were very good and the federations told us, that the work of the Rules Instructors within the federation was a great help for the development of the pool sport .

Evereybody likes to play pool but it ia also important to have Rules for Play which will be interpreted everywhere in the same way. Each EPBF Rules Instructor has the knowledge for building up a referee structure and he knows really the Rules for Play.

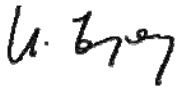

The EPBF offers to organize a Rules Instructor course, so that you can use this chance to have in the future a EPBF Rules Instructor within your federation. Such a course is expensive but not so expensive for your federation because the EPBF bears the costs for the instructors and documents for the course and the EPBF pays also the costs for the overnight stay of the participants; that means, you have only to bear the costs for travel and food.

A course begins on Thursday (arrival day) and ends on Sunday (departure day), Date and place depends on the number of the participants and where they come from; when we know which nations will take part, we try to find a “central Place”. Please have in mind, that the course will be held in English.

If you are interest in to send participants (max. 2 persons) please inform us **up to 29.2.2008**

best regards

Gre Leenders
President
